

01 · STUDENTS

From university to the profession

A short introduction to the Design Algorithm ecosystem: what it contains, how it differs from a university programme and where to begin.

University teaches you to design. It far more rarely explains what happens to a project afterwards: how it becomes documentation, a budget, a construction site and a completed object.

Design Algorithm is a method that describes that whole path. The Academy teaches the method, and around it stands an environment where the same method lives in professional practice, in digital tools and in the work of a studio.

This short introduction exists so that you can see the whole picture and choose where to start.

PERSONAL BRAND · PROFESSIONAL · METHOD · TECHNOLOGY · ART

Five directions of a single system: a professional path, design practice, the method, digital tools and art.

A map of possibilities

01

Understand the method

The logic that turns a project into a managed process instead of a series of improvisations.

03

Book a micro-consultation

Thirty minutes online to look at your situation and understand which path suits you.

05

Read the FAQ

Answers about programmes, formats, how the work is organised and how the ecosystem works.

07

Learn about the digital platform

Design Algorithm Application — a project management environment where the method becomes a tool.

02

Take a course

Online, at your own pace. In person in Moscow, with project reviews and direct contact with the teacher.

04

Take the test

A short check of how well you understand the design and management process.

06

Explore Pierangelo Moro's path

The architect behind the method: education, practice, teaching, publications.

08

Look into Design Space

The place where design meets art.

Discover → Learn → Apply → Become a professional

01 Discover

Understand that a project is a sequence of decisions, not a fortunate image.

02 Learn

Take the course: online at your own pace, or in person in Moscow with project reviews.

03 Apply

Bring the method into your university work and your first professional projects.

04 Become a professional

Working in the logic of a process is what separates a specialist from an executor.

Entry points into the ecosystem

Begin with whatever is closest to your situation today. The links on this page are active.

Design Algorithm Academy	Programmes, formats of study and the Academy licence	designalgorithm.ru/en
Students	The section built around your situation	designalgorithm.ru/en/students
Online course	Online course: immediate access, your own pace	designalgorithm.ru/en/studentcourseon
In-person course · Moscow	In-person training in Moscow	designalgorithm.ru/en/studentcourseof
Micro-consultation	Online micro-consultation, 30 minutes	designalgorithm.ru/en/consultation
Test	Test: check your understanding of the process	designalgorithm.ru/en/quiz
FAQ	FAQ: how everything works	designalgorithm.ru/en/faq
Pierangelo Moro	The professional path and qualifications of the author of the method	pierangelomoro.ru/en
Design Algorithm Application	Digital platform for managing projects	designalgorithm.app/en
Moro Design	Design and site management up to turnkey delivery	morodesign.studio/en
Design Space	Design + Art	designspace.art/en

Start building the method with which you will enter the profession.

The introductory module is open free of charge. It requires no preparation and shows whether this way of thinking suits you.
